

Cloudwise Consulting can help you determine the best **mix** of today's fast-paced technologies and deliver them with creativity to

match

your business image and requirements. More importantly, we empower you to take control and maintain your own content. Our sites are search-engine optimized, easy to maintain and kept current!

We are all about leveraging time, talent and resources to deliver **extreme** value. To that end, we work with proven, time-tested open-source (free or close to free) solutions as much as possible. And you'll never get a 'cookie-cut' website from us. We strive to give you a 'look,' an 'image' that really reflects the spirit of your business and provides you with just the right features that you require--some you may not have even thought of. We try to advise you on where and how you can put in a little bit of effort to yield a great return to your business.
